

MEDICAL DIAGNOSIS REPORT

Report Date: April 11, 2025

Patient Name: tanmay

DIAGNOSIS

Condition: Varicose veins

Description:

A vein that has enlarged and twisted, often appearing as a bulging, blue blood vessel that is clearly visible through the skin. Varicose veins are most common in older adults, particularly women, and occur especially on the legs.

RECOMMENDED PRECAUTIONS

- lie down flat and raise the leg high
- use ointments
- use vein compression
- dont stand still for long
